CHANGING THE WORLD ONE CONCERT AT A TIME

THE MORRIS BROTHERS STORY

The Morris Brothers are two N.E.R.D.s - Never Ending Radical Dudes.

And they are the coolest nerds you will ever meet. As a result of a top secret explosion in their underground treehouse laboratory, Homer & Rupert "Rootbeer" Morris have been transformed into superheroes on a mission to save and rock the entire world; one concert at a time.

The We Stand As One World Concert Tour: When not in their laboratory conducting top secret experiments, you will find this zany duo performing on their epic ***We Stand As One Tour*** across North America; in elementary schools, theater's, city events, state fairs & festivals. Their live concert performance uses original rock music and audience participation to educate students, teachers and parents on suicide prevention, how to stand as one against bullying, peer pressure, ostracizing and more. They accomplish this by reinforcing to the schools, and community, the importance of self-confidence, accepting others, having great character, showing kindness, and being your best ever day.
